# ~ Salanda law for territory 2025~

The Salandan government informs to the leaders of provinces that they need to provide to the government their territorial delimitations for the purpose of better control on external frontiers. As well as the name of any settling formed by at least one house and the exact number of paths, ways, roads, earth roads, etc ...

If anyone fails to provide their territorial extension and delimitation in the span of 15 days within the approval of this law, their province statue will be revoked perpetually, their territory incorporated as a crown territory and their charge as president will be also revoked. One exception will be if the King himself issues a permit, in which case the span will extend to 3 months.

For the settling and roads information, if failed to provide simply will default to 0 of both and no punishment will be applied. For the roads and paths they will automatically shift to the following names depending of their number and use:

Main	Street of Reuben I
Secondary	" Jeekie
3	QWASMONEAN SPAZMO LANE
4	" Eric CabraNegra
5	" iidu
6	" Jacob S
7	" Solomon K
8	" ristabbita
